# JIREH SCHOOL PARKING POLICY

---

## For safety sake.....

### Please remember:

- to park in the designated spaces i.e. do not drive right up to the school gate and reverse out of the car park
- to escort your child to their classroom (do not allow them to come onto the school grounds unattended)

- to collect your child from their classroom/the school grounds after school, (do not allow them to leave the school grounds unaccompanied by a responsible adult i.e. not a sibling)
- to not leave your child unattended at school before 8.30am—there is no guarantee that staff will be on site before that time
- to not leave your child at school after 3.15pm—again there is no guarantee that staff will be on site after that time
- to close the gate
- to advise anyone bringing your child to school or collecting them of the above guidelines

## Jireh School Handbook (p10)

---

### **Drop Off and Collection of Students**

Parents dropping off students must ensure that they are escorted inside the school premises. Before school, students are to proceed to their classrooms and prepare their desk for the day. After school all students are to wait for their parents inside the school gates. The teachers are not responsible for looking after children after **3.15pm**. If you cannot collect your child on time, you must make alternative arrangements. Staff often have other school related commitments after that time and there is no guarantee there will be adults on site.
