

Non-Preference Enrolment Priorities

NZCPT schools use the following set of priorities when establishing the allocation of available non-preference places for enrolment.

Non-Preference Students

Non-preference students will be enrolled only if enrolment places remain after all preference applicants have been enrolled. The maximum number of places available for non-preference students will be governed by the maximum allowable under our Integration Agreement.

In this grouping, priority will be given in the following order:

- 1 Siblings of current non-preference students
- 2 Siblings of former non-preference students
- 3 Other non-preference applicants

Waiting List Procedure

All unsuccessful applicants may choose to have their names placed on a waiting list. The waiting list will be kept within relevant priority categories, ranked in order. Students on the waiting list may be offered places at a later date if they become available. The waiting list will remain current until the beginning of the next enrolment intake.

Pre-enrolment Procedure

Applications can be made throughout the year. All applicants will be advised of the outcome of their application as soon as possible

Notes

- Applicants seeking priority status on the basis of a sibling relationship may be required to produce proof of that relationship.
- The Board delegates to the Principal, as the professional leader of the school, the responsibility to administer this enrolment procedure and to exercise discretion where necessary. This discretion may be exercised, where appropriate, in consultation with the Proprietors.

Places at other levels

The selection processes described above will be the basis for students applying to enrol at all levels either at the beginning of or during the school year. Applicants on the waiting list will have first offer of places as they become available.
